Re-facing front façade and part of westerly façade. Mass of building being changed for appearance of multiple buildings. The proposed plans for the building calls for two commercial units on the first floor as well as two one-bedroom apartments. The second-floor plan calls for seven one-bedroom apartments.

Work on the facade as follows: cut new opening in exterior wall for handicapped accessible entry; trim and stucco panels below first floor windows, existing aluminum and glazing to remain on bottom floor windows by door; signage panel for future signs and light (signs and lighting to be submitted by tenant determination); existing windows to remain on second floor; trim around existing windows; scored stucco finish over existing stucco finish; applied PVC exterior trim and brackets over stucco inset panel; align with existing cap, existing roof to remain and be repaired, existing siding to be replaced, existing masonry to remain; samples of colors to be used provided. Matthew Bilow has recused himself from this application due to a potential conflict.

Architect Al Zaccone presented drawings of the proposed project as well as explain the changes to those present. The building will be a mixed use. There will be two storefronts and nine residential units. The businesses will need to apply for their own signage and lighting. The applicant wanted approval from the HPC so it can be presented to the Zoning Board for approval. As there was not a quorum, Al Zaccone left the drawing for members to look at in between meetings and offered to answer any questions members may have in between meetings. HPC members were sent a picture of the drawing and advised it is present in the conference room for them to look at.

The HPC will get the opinions of the remaining members to see if this application is acceptable. James Manfredi does not like the appurtenance on the top but approves the application. He would like a further explanation on it. Gerard Garofalow has no problem with the application as it pertains to the HPC; he has other concerns outside of the HPC's jurisdiction about the application. Jeff Hoffman, Andre Lam and Donna Rose-McEntee approve the application. After the meeting, Bob Olson emailed that he is in favor of the application but would like to see grids on the casement windows. Matt Bilow recused himself from this application. Members said that this application will come back before the HPC after getting Zoning Board comments and approval and any changes can be made when the application is formally approved.

(17-11-01) 172 Main Street, previously submitted an application for work to the building. Applicant is Mike Khan of MSK Management Company (Mike@mskmgmt.com) for Dominos and his new attorney, Marc Ramundo (416 E. Central Blvd., Palisades Park, NJ 07650 mramundo@ramundolaw.com). Daniel Lee (DLee1010@hotmail.com), current property owner, is in the process of selling the property to Mike Khan.

The applicant has asked the Building Dept. about a CO but he must first complete all work as agreed to under Phase 1. They have not fixed the sidewalk or the entry (temporary ramp still there), repair of tar on front wall is very sloppy.

Mr. Ramundo explained that his client is anxious to close on the property and is prepared to complete the work necessary to get a CO. The minutes from January 2018 were given to Mr. Ramundo so he knew exactly what work was agreed upon to be completed as Phase 1. Mr. Ramundo wrote up a binding maintenance agreement with time limitations with penalties to be paid if the work is not completed on time in order to move the approval of a CO along. The HPC received a copy of the maintenance agreement from Mr. Ramundo, which was sent to the Village attorney for comments. The HPC has not heard from the Village attorney yet.

Gerard Garofalow reviewed the maintenance agreement and he is totally against it. He feels there needs to be some real penalties involved if it's not finished on a timely basis. He believes the applicant should be given 90 days to complete all work and the penalty should be a **minimum** of \$1,000.00 a day, 7 days a week, 365 days a year. The penalty should be payable every day by certified check to the Village of Ridgefield Park and be continuous until the project is completed. The penalty shouldn't stop when the project is started. The project needs to be finished totally in order to stop the penalty.

(19-04-01) Cosmic Wheel (John Russo, owner) 184-186 Main Street, submitted an application for the following work: Replace windows and door at 186 Main Street with bronze aluminum door and framing to match windows; windows to be same height from ground as adjacent to storefront on bicycle shop at 184 Main Street; the manufacturer of the door and related materials is Sell-Mar Enterprise; painting of the exterior of the building to commence soon after approval; a new cycle shop sign is being created (and must first be submitted for approval before installation); the new business at 186 Main Street also seeks approval for signage to first be submitted for approval before installation; gooseneck lighting to also be installed and also must be submitted before installation; color of facade to be discussed and approved at HPC meeting.

In between meetings, the HPC gave John Russo informal approval to order the windows to keep his project moving. Colors need to be approved after John Russo selects the color scheme to use. Members were not in favor of the original color scheme submitted. He must still get permits from Building Dept. before any work is started. The HPC has not received any further information on a new color selection from Mr. Russo.
